POSITION DESCRIPTION FORM

JOB FUNCTIONS

List the key tasks that the team member will be completing aboard. Include all critical tasks and provide sufficient detail to ensure the applicant understands the nature of the job they are applying for. Please provide 5-6 as a minimum and add extra rows as needed.

Perform the comprehensive electrical/electronic and mechanical maintenance (where indicated and trained), repair, routine testing and automation trouble shooting of the above mentioned equipment.

Maintain current records of maintenance and repairs performed

Help with the continuous updating and development of planned maintenance procedures through experience gained with each type of machine on-board for which he/she is responsible.

Ensure the inventory of strategic spare parts onboard is sufficient to adequately maintain each machine for which he/she is responsible.

Ensure the safe and efficient operation of the equipment for which he/she is responsible

Participate in drills and training as required by the company

Any additional assignment as per Chief Engineer's discretion

All work is to be requested to and coordinated by the Hotel Engineer.

Ensure that all aspects of company's OH&S are effectively applied during his/her working activities.
